# Support

This integration is designated as **Not Supported**.

Integrations, apps, and add-ons designated as **Not Supported** are not supported by ThreatQuotient's Customer Support team.

While you can report issues to ThreatQ's Customer Support team regarding the integration/app/add-on, you are solely responsible for ensuring proper functionality and version compatibility of Not Supported designations with the applicable ThreatQuotient software.

If unresolvable functional or compatibility issues are encountered, you may be required to uninstall the integration/app/add-on from your ThreatQuotient environment in order for ThreatQuotient to fulfill support obligations.

For ThreatQuotient Hosted instance customers, the Service Level Commitment and Service Level Credit in the ThreatQuotient Service Level Schedule will not apply to issues caused by Not Supported integrations/apps/add-ons.

# Versioning

- Current integration version: 1.0.0
- Compatible with ThreatQ versions  $\geq$  4.0.0

# Introduction

The GreyNoise Community operation provides you with the ability to query info about an IP address from GreyNoise's Community API.

The operation is compatible with IP Address-type indicators and provides the following action:

- **Query** - queries for info about an IP address from GreyNoise's Community API.

See the [Actions](#) chapter for more information on this action.

# Installation

Perform the following steps to install the integration:

The same steps can be used to upgrade the integration to a new version.

1. Log into <https://marketplace.threatq.com/>.
2. Locate and download the integration file.
3. Navigate to the integrations management page on your ThreatQ instance.
4. Click on the **Add New Integration** button.
5. Upload the integration file using one of the following methods:
  - Drag and drop the file into the dialog box
  - Select **Click to Browse** to locate the integration file on your local machine

ThreatQ will inform you if the operation already exists on the platform and will require user confirmation before proceeding. ThreatQ will also inform you if the new version of the feed contains changes to the user configuration. The new user configurations will overwrite the existing ones for the operation and will require user confirmation before proceeding.

6. You will still need to [configure and then enable the operation](#).

# Configuration

ThreatQuotient does not issue API keys for third-party vendors. Contact the specific vendor to obtain API keys and other integration-related credentials.

To configure the integration:

1. Navigate to your integrations management page in ThreatQ.
2. Select the **Operation** option from the *Type* dropdown (optional).

If you are installing the integration for the first time, it will be located under the **Disabled** tab.

3. Click on the integration to open its details page.
4. Click on the toggle switch, located above the *Additional Information* section, to enable the operation.

# Actions

The GreyNoise Community operation provides the following action:

ACTION	DESCRIPTION	OBJECT TYPE	OBJECT SUBTYPE
Query	Queries for info about an IP address from GreyNoise's Community API.	Indicator	IP Address

## Query

The Query action queries for info on a specific IP address. The data returned is a flat JSON object as demonstrated in the sample response below.

<GET> <https://api.greynoise.io/v3/community/<IP ADDRESS>>

### Sample Response:

```
{
  "ip": "8.8.8.8",
  "noise": false,
  "riot": true,
  "classification": "benign",
  "name": "Google Public DNS",
  "link": "https://viz.greynoise.io/riot/8.8.8.8",
  "last_seen": "2021-05-13",
  "message": "Success"
}
```

ThreatQ provides the following default mapping for this Action:

FEED DATA PATH	THREATQ ENTITY	THREATQ OBJECT TYPE OR ATTRIBUTE KEY	PUBLISHED DATE	EXAMPLES	NOTES
noise	Indicator.Attribute	Noise	N/A	False	N/A
riot	Indicator.Attribute	RIOT	N/A	True	Stands for Rule It Out
classification	Indicator.Attribute	Classification	N/A	benign	N/A
name	Indicator.Attribute	Name	N/A	Google Public DNS	N/A
link	Indicator.Attribute	Link	N/A	<a href="https://viz.greynoise.io/riot/8.8.8.8">https://viz.greynoise.io/riot/8.8.8.8</a>	N/A
last_seen	Indicator.Attribute	Last Seen	N/A	2021-05-13	N/A
