Support

This integration is designated as **ThreatQ Supported**.

Support Email: support@threatq.com

Support Web: <https://support.threatq.com>

Support Phone: 703.574.9893

Integrations/apps/add-ons designated as **ThreatQ Supported** are fully supported by ThreatQuotient's Customer Support team.

ThreatQuotient strives to ensure all ThreatQ Supported integrations will work with the current version of ThreatQuotient software at the time of initial publishing. This applies for both Hosted instance and Non-Hosted instance customers.

ThreatQuotient does not provide support or maintenance for integrations, apps, or add-ons published by any party other than ThreatQuotient, including third-party developers.

Integration Details

ThreatQuotient provides the following details for this integration:

Current Integration Version	1.0.0
Compatible with ThreatQ Versions	>= 5.6.0
Support Tier	ThreatQ Supported
ThreatQ Marketplace	https:// marketplace.threatq.com/ details/maltego- investigation-importer- operation

Introduction

The Maltego Investigation Importer operation enables you to import an XML export from Maltego as a ThreatQ Investigation.

The operation provides the following action:

- **Import File** - imports a Maltego XML Export into ThreatQ as an investigation.

The operation is compatible with the Files system object.

Installation

Perform the following steps to install the integration:

The same steps can be used to upgrade the integration to a new version.

1. Log into <https://marketplace.threatq.com/>.
2. Locate and download the integration file.
3. Navigate to the integrations management page on your ThreatQ instance.
4. Click on the **Add New Integration** button.
5. Upload the integration file using one of the following methods:
 - Drag and drop the file into the dialog box
 - Select **Click to Browse** to locate the integration file on your local machine

ThreatQ will inform you if the operation already exists on the platform and will require user confirmation before proceeding. ThreatQ will also inform you if the new version of the operation contains changes to the user configuration. The new user configurations will overwrite the existing ones for the operation and will require user confirmation before proceeding.

The operation is now installed and will be displayed in the ThreatQ UI. You will still need to [configure and then enable](#) the operation.

Configuration

ThreatQuotient does not issue API keys for third-party vendors. Contact the specific vendor to obtain API keys and other integration-related credentials.

To configure the integration:

1. Navigate to your integrations management page in ThreatQ.
2. Select the **Operation** option from the *Type* dropdown (optional).
3. Click on the integration entry to open its details page.
4. Review any additional settings, make any changes if needed, and click on **Save**.
5. Click on the toggle switch, located above the *Additional Information* section, to enable it.

Actions

The operation provides the following action:

ACTION	DESCRIPTION	OBJECT TYPE	OBJECT SUBTYPE
Import File	Imports a Maltego XML Export into ThreatQ as an investigation.	Files	N/A

Import File

This action will take a given Maltego XML Export, and import it into ThreatQ as an investigation. Executing this action will upload all the Maltego entities as ThreatQ objects, create the links between the objects, and add the objects to a new investigation. Entity positions will be maintained throughout the import process.

Configuration Options

The Import File action will provide you with the following configuration options:

PARAMETER	DESCRIPTION
Owner Username / Email	The username or email to be set as the owner of the newly created investigation.
Import Properties as Attributes	Imports all properties as attributes for a given object.
Create Investigation	Disabling this will not create an investigation, and only upload the objects/entities.

☰ **Operations**

Select An Operation

 **Maltego Investigation Importer: Import File** ▼

Configuration Parameters

Owner Username / Email

Enter the username or email for the user that you want to set as the owner of the newly created investigation.

☐ **Import Properties as Attributes**

Enabling this will import all properties as attributes for a given object.

☒ **Create Investigation**

Disabling this will not create an investigation, and only upload the objects/entities.
