Support

This integration is designated as **Developer Supported**.

Support Email: info@silentpush.com

Support Web: N/A

Support Phone: N/A

Integrations designated as **Developer Supported** are supported and maintained by the developer who submitted the integration to the ThreatQ Marketplace. The developer's contact information can be found on the integration's download page within the Marketplace as well as in this guide.

You are responsible for engaging directly with the developer of Developer Supported integrations/apps/add-ons to ensure proper functionality and version compatibility with the applicable ThreatQuotient Software.

If functional or compatibility issues that may arise are not resolved, you may be required to uninstall the app or add-on from their ThreatQuotient environment in order for ThreatQuotient to fulfill support obligations.

For ThreatQuotient Hosted instance customers, the Service Level Commitment and Service Level Credit in the ThreatQuotient Service Level Schedule will not apply for any issues caused by Developer Supported integrations/apps/add-ons.

ThreatQuotient reserves the right to remove the Developer-Supported designation of third-party apps and add-ons if the developer is not, in ThreatQuotient's determination, fulfilling reasonable obligations for support and maintenance.

Failure by the developer to update compatibility of an app or add-on within 90 days of the release of a new version of applicable ThreatQuotient Software will result in reclassification to Not Actively Supported.

Integration Details

ThreatQuotient provides the following details for this integration:

Guide Version 1.0.0

TAXII Server Version 2.1.0

Silent Push Version >= 4.7

**Compatible with ThreatQ
Versions** >= 5.6.0

Support Tier Developer Supported

Developer Contact info@silentpush.com

Introduction

The Silent Push TAXII Feed, introduced in version 4.7, provides a new method for accessing all Silent Push intelligence feeds through a TAXII server interface. This capability enables easier data sharing with partners and seamless integration with common SIEM and TIP platforms. The TAXII server is available at taxii.silentpush.com, and users can obtain access by contacting their Silent Push Customer Success representative.

This feed is a TAXII feed and does not require installation files from the ThreatQ Marketplace.

Prerequisites

You will need the following to use the TAXII feed:

- Your Silent Push username and password to set up this TAXII feed in ThreatQ.
- Access to the Silent Push TAXII server that is obtained from contacting your Silent Push Customer Success representative.

Setting up the TAXII Feed

ThreatQuotient does not issue API keys for third-party vendors. Contact the specific vendor to obtain API keys and other integration-related credentials.

To set up and configure the TAXII feed:

1. Navigate to your integrations management page in ThreatQ.
2. Click on the **Add New Integration** button and select the **Add New TAXII Feed** option.
3. Enter the following feed settings:

PARAMETER	DESCRIPTION
What would you like to name this feed	Enter the name of the feed. This is the name that the ThreatQ UI will display.
How often would you like to pull new data from this feed	Select the frequency in which the feed is pulled. Options include: <ul style="list-style-type: none"> ◦ Every Hour ◦ Every 6 Hours ◦ Every Day ◦ Every 2 Days ◦ Every 14 Days ◦ Every 30 Days

What would you like to name this feed?

How often would you like to pull new data from this feed? _____

Every Hour ▼

4. Enter the TAXII Connection Settings:

PARAMETER	DESCRIPTION
TAXII Server Version	Select the 2.1 option from the dropdown menu.
Discovery URL	Enter the Silent Push URL: <code>https://taxii.silentpush.com/taxii2/</code> .
Poll URL	Optional - enter a URL for specific endpoint on the TAXII server to poll for data. If this field is left blank, the TAXII client will determine the appropriate path via the Collections Service.
Collection Name/Title	Enter the Silent Push collection name to pull.

TAXII Connection Settings

TAXII Server Version

Discovery URL

Path to the TAXII Server's Discovery Service

Poll URL (Optional)

Optional URL specifying a specific endpoint on the TAXII Server to poll for data. If not supplied, the TAXII Client will attempt to determine the appropriate path via the Collections Service.

Collection Name / Title

Name of the collection to poll data from

5. Leave the **Disable Proxies** setting unchecked.

6. Enter your **Silent Push Login Credentials**:

PARAMETER	DESCRIPTION
Username	Enter your Silent Push username.
Password	Enter your Silent Push password.

Login Credentials (if applicable)

Basic Authentication Username

Basic Authentication Password

7. Leave the **Certificate/Keys** fields blank.
8. Leave the **Verify SSL** field selected and paste a Host Bundle (if applicable).
9. Click on **Add TAXII Feed**.

The TAXII feed will now appear as an integration tile card on your My Integrations page using the display name you supplied in step 3. You can also click on the **Category** dropdown and select **STIX/TAXII** to filter your view.

10. Click on the TAXII feed's tile card to open up its details page.
11. Click on the **Enable** toggle switch, located above the *Additional Information* section, to enable the TAXII feed.
